

Seattle Golf Master Plan

Open House

Seattle Parks and Recreation is working with the community to update the 1991 Golf Course Master Plan and the 2005 Economic Analysis for all four municipal golf courses. We encourage you to come and participate in developing the future of golf for Seattle municipal courses.

The Golf Course Master Plan will address:

- Perimeter trails at each golf course
- Clubhouse renovations
- Electric cart barns
- Tee-to-green cart paths
- Driving range expansions
- Maintenance facility renovations

Please join us at an open house!
