RE: **Community Meeting to discuss Traffic Calming 48<sup>th</sup> Ave SW with Asphalt Speed Cushions**

Dear Resident:

In 2010 your neighborhood put together a application through the Neighborhood Projects Fund (NPF) to install traffic calming devices on 48<sup>th</sup> Ave SW between SW Brandon and SW Graham St. Working with members of Morgan Junction Community Council, a proposal to install 4 sets of speed cushions, similar to those shown below was developed.

**We would like to invite you to a community meeting to discuss this proposal.**

**When:** Thursday, May 19<sup>th</sup>, 2011

**Time:** 7:00 pm

**Where:** Seaview Methodist Church, 4620 SW Graham St

Once the community is in agreement with the traffic calming measures, we will develop a design and hope to construct the speed cushions in September. If you have any further questions, please give me a call at (206) 684-8681. I can also be reached by email at [shauna.walgren@seattle.gov](mailto:shauna.walgren@seattle.gov).

Sincerely,

Shauna Walgren, Transportation Planner  
Neighborhood Traffic Operations
