

SENIOR LIVING | WEST SEATTLE

# So this is senior living

**Join us for a special presentation to learn about senior living choices and available services.**

When considering senior living options, it's important to understand the differences. There are independent living and assisted living communities. For more specific or advanced needs there are memory care communities, skilled nursing facilities and home health care.

This presentation will help you make the right choice of services provided by assisted living, advanced needs communities and in home care.

**Nov. 28**

Tuesday  
5-7pm

2615 SW Barton St  
Seattle, WA 98126

# Learn how to choose the right level of care for you or a loved one.

Communities are designed to serve seniors who require varying amounts of assistance based on each individual's care requirements. This program will help you understand the variety of options available, and the level of assistance and support each type of community, including in home care, provides.

Representatives from a skilled nursing community, Village Green, Quail Park Memory Care and Home Instead will provide information about services offered that span skilled nursing, assisted living, memory care and in home care.

Light refreshments will be served and a Q&A session will follow the presentation. Tours of Village Green will also be available.

**RSVP, schedule a visit, or learn more.**

**(206) 937-6122**
